

How to get started?

To register for HSBC Personal Online Banking, all you need is access to the Internet, and be holder of HSBC Bank Armenia ATM card.

Online Banking log on procedure

The new Online Banking service by HSBC is now, literally, at the tip of your fingers, Our global experience and know-how teams up with cutting edge technology in order to satisfy the needs of our customers all around the world. You can now conduct banking transactions on your computer, 24 hours a day, 7 days a week, 365 days a year. Fast, easy and with the safety only cutting edge technology can offer.

Your online security device (token)

Entering HSBC's Online Banking service is fast and safe. In order to use HSBC Online Banking Service, the Online security device is needed every time you log in and during re-authentication of transactions.

At HSBC, we continually work to ensure that we maintain the highest standards of online security. To safeguard your Online Banking, HSBC Personal Online Banking uses 128 bit secured socket layer (SSL) encryption, one of the most advanced security technologies available. In addition, both the log-on procedure and various sensitive Online Banking transactions are further protected by the use of a portable Security Device.

¹ Internet and Mobile Banking services are available for Individuals only.
